Total	97,756	9,081	

STRATEGIC ACCESS VIA M18 & A1(M)

The site is situated approximately 7 miles from Doncaster, a key logistics hub. Junction 34 of the A1(M) lies just 4 miles to the south, providing direct access to the national motorway network and strong connectivity to major UK and international distribution routes. Consequently, a number of major occupiers such as Ikea, Amazon, Next plc, DHL and Lidl have chosen Doncaster as the central distribution hub for their national supply chain networks.

The location also benefits from excellent access to air freight and passenger connections. In addition to regional and international airports across Yorkshire and the East Midlands, Doncaster Sheffield Airport is scheduled to reopen from 2027, further strengthening the area's long-term connectivity and supporting future business growth.
